**The Southern Association of
Student Employment
Administrators**

There are many challenges facing higher education today: rising costs, decreased funding, legal issues, reauthorization, Federal Work Study America Reads/Counts programs, community service, changes in technology and economic trends. Meeting these challenges requires creativity, innovation and the ability to look beyond "the way it's always been done."

The members of SASEA successfully master these charges everyday and are ready and willing to share their knowledge and expertise with you. Join the network and find out how to improve services to students and employers; learn and grow professionally; and take your programs to new heights!

We look forward to working with you!

PURPOSE

The Southern Association of Student Employment Administrators is a nonprofit association of professionals involved with programs for students who work while attending college. To this end, we support and promote student employment through the exchange of ideas, professional development and the promotion of student employment administrators and their programs.

The Purpose of SASEA is as follows:

- To *improve* the professional services of all college and university administrators who assist post-secondary students in securing employment.
- To *inform* members of trends and issues in employment and professional development.
- To *exchange* ideas and information relative to the administration of student employment programs.
- To *serve* effectively the interests and needs of students who desire employment to finance their education.
- To *facilitate* communication between educational institutions and employers.
